0 – 1. Information related to the National Bank of Ukraine as a whole

2. Methodology	
<u>2.1 Concepts and definitions</u>	<p>2.1.1 Concepts and definitions</p> <p><i>Central bank survey</i> contains the following components:</p> <ul style="list-style-type: none">• Monetary base – currency, issued in circulation by the National Bank of Ukraine, and transferable deposits in national currency in the National Bank of Ukraine.• Domestic credit – net claims of the National Bank of Ukraine on the central government and claims on other residents in national and foreign currencies.• Net claims on central government – balance between claims and liabilities of the National Bank of Ukraine vis-à-vis central government.<ul style="list-style-type: none">○ Claims on central government include claims under the investments in government securities, under the loans granted and other accounts receivable in national and foreign currencies.○ Liabilities to central government include liabilities under the funds of the State Budget, funds of the customers supported at the expense of the State Budget, off-budget and

	<p>special funds, as well as under other accounts payables in national and foreign currencies.</p> <ul style="list-style-type: none"> • Claims on other residents – claims of the National Bank of Ukraine on non-financial corporations and other sectors under loans, shares and other equity of other financial corporations and other accounts receivable, including state and local government, in the national and foreign currencies. • Net foreign assets – balance between claims and liabilities of the National Bank of Ukraine vis-à-vis non-residents. <ul style="list-style-type: none"> ○ Claims on non-residents include official reserve assets (international reserves) of the National Bank of Ukraine and other less liquid non-reserve assets of the National Bank of Ukraine placed with non-residents. ○ Liabilities to non-residents include such categories of liabilities: transferable deposits, loans, financial derivatives and other accounts payable. ○ Other items (net) - balance between other liabilities and claims not included in the abovementioned items. <p>The concept and definitions of data falling under <i>Central bank survey</i> category comply with international standards and recommendations set forth in <i>Monetary and Financial Statistics Manual and Compilation Guide (IMF, 2016)</i>.</p>
<p><u>2.2 Scope</u></p>	<p>2.2.1 Scope</p> <p><i>Scope of the data</i></p> <p><i>Central bank survey</i> is based on statistical data of the National Bank of Ukraine.</p>
<p><u>2.3 Classification/sectorization</u></p>	<p>2.3.1 Classification/sectorization</p> <p>The breakdown by sectors of economy is consistent with the international standards and recommendations of the <i>Monetary and Financial Statistics Manual and Compilation Guide (IMF, 2016)</i> and is exercised according to <i>Classification of Institutional Sectors of the Economy of Ukraine (CISE) approved by the State Statistics Service of Ukraine Order No.378 of December 03, 2014 (as amended)</i>.</p> <p>Institutional units – residents similar in their objectives, functions and broken down by five sectors of the economy:</p> <ol style="list-style-type: none"> 1. Financial corporations – the National Bank of Ukraine, other deposit-taking corporations (banks, established and operating in the territory of Ukraine) and other financial

	<p>corporations (insurance companies, pension funds, investment funds, credit institutions, financial institutions, etc.);</p> <p>2. General government sector – central government, state and local governments, including social security funds;</p> <p>3. Non-financial corporations – public non-financial corporations, private non-financial corporations, foreign-controlled non-financial corporations;</p> <p>4. Households – employees, own-account workers, employers, recipients of property income, pensions and other transfer incomes;</p> <p>5. Non-profit institutions serving households: political parties and other non-governmental organizations, charities, social and cultural subdivisions of non-financial and financial corporations.</p>
<p><u>2.4 Basis for recording</u></p>	<p>2.4.1 Valuation</p> <p>Domestic currency unit - Hryvnia (UAH) - is the standard unit of account. Data of the <i>Central bank survey</i> are given in UAH millions. Financial assets are recorded at the prices of their purchase or origination (at original or fair value). The financial assets are revalued to a fair (market) value on the balance sheet date.</p> <p>Stocks denominated in foreign currency are converted into national currency amounts, using the official exchange rate of hryvnia versus foreign currencies, determined by the National Bank of Ukraine.</p> <p>2.4.2 Recording basis</p> <p>Data on stocks of assets and liabilities are compiled using accrual basis accounting, where revenues and expenses are recorded in the period when they occur. Accrued income and expenditures under deposits, credits and securities are included in the outstanding amount of a financial asset or liability.</p> <p>2.4.3 Grossing/netting procedures</p> <p>Data are compiled on gross basis in compliance with internationally accepted standards. However, for analytical purposes, some components of the mentioned data category are compiled on a net basis, in particular: the data on claims and liabilities to the central government and non-residents, other assets and other liabilities are netted in the categories “net claims on central government”, “net foreign assets”, and “other items (net)”.</p>
