

## 1. Merchandise trade (according to BPM6)

1.1. Exports of Goods

1.2. Imports of Goods

1.3. Merchandise trade by regions

### Methodological Comments on the Estimation of the Value of Exports / Imports of Goods in the Balance of Payments (Preliminary Data)

Exports / imports of goods are calculated based on the State Statistics Service of Ukraine (SSSU) data on the external trade in goods for January-July and customs statistics for August with relevant adjustments.

EXPORTS. The value of exports according to the SSSU for January-July and customs statistics for August (USD 41 802 million) were adjusted for:

- *excluded* the value of goods for processing (USD 3 447 million);
- *added* the value of informal trade (USD 160 million).

IMPORTS. The value of imports according to the SSSU for January-July and customs statistics for August (USD 43 603 million) were adjusted for:

√ *excluded*:

- the value of goods for processing (USD 2 430 million);
- the cost of goods transportation to the territory of Ukraine and their insurance (adjustment to FOB prices – USD 1 156 million)

√ *added*:

- the value of informal trade (USD 1 523 million);
- the cost of goods purchased at ports (USD 24 million)

Detailed information on adjustment of SSSU data and BOP indicators is published quarterly in section “External sector’s statistics, Balance of payments, External trade” (<https://bank.gov.ua/ua/statistic/sector-external/data-sector-external#1> ). Presentation on Reasons for Discrepancies between NBU and SSSU External Trade Data is available in section "External Sector Statistics, Methodological Comments, Clarifications (Explanations)" ([https://bank.gov.ua/admin\\_uploads/article/rozbizh\\_NBU\\_DSSU\\_2021.pdf](https://bank.gov.ua/admin_uploads/article/rozbizh_NBU_DSSU_2021.pdf) ).
